RXSOL-20-2006-210	210 Ltr

Product Description:

RXSOL-20-2006- has the unique feature that dissociates slop to separate oil and water. This product is formulated to meet the ever changing regulations for the treatment of tank cleaning waste water after using petroleum based solvents, and Bunker "C" cleaners.

Application:

Ideally suited for slop tanks. Also recommended for local cleaning & degreasing of engine rooms, bilges & tank tops. Low toxicity, non - corrosive. Highly effective, economical solvent cleaner.

Dose:

For light contamination dilute with water in the ratio 1:20. For medium contamination dilute with a petrosolvent. And for heavy contamination concentrated RXSOL-20-2006-0210 is suggested.
