Corrosion Inhibitor for closed & Open cooling system

Part/Order no:	Packing
RXSOL-40-4028-25	25 Ltrs
RXSOL-40-4028-210	210 Ltrs

Product Description:

Supplementary corrosion inhibitor - open or closed cooling systems.

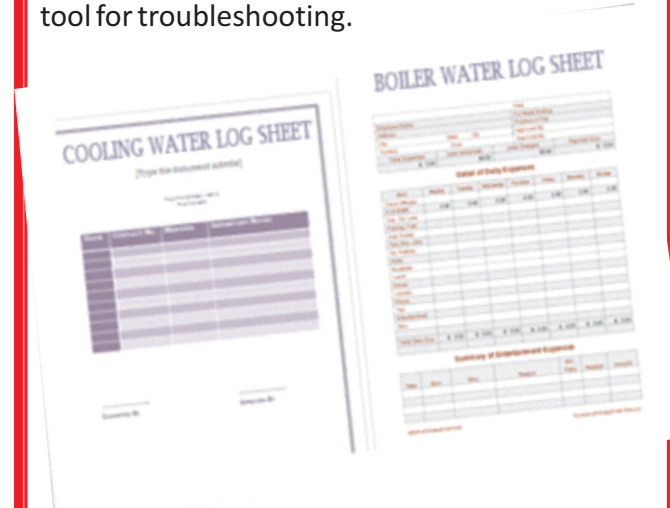

RXSOL-40-4028 is an innovative, supplementary corrosion inhibitor developed specifically for use in open or closed cooling systems. In particular, RXSOL-40-4028 creates an insoluble polymeric surface complex on copper and its alloys, and also reacts with copper in solution. RXSOL-40-4028 also works synergistically with other inhibitors to effectively control the corrosion of steel and aluminium in the system. Control and dosage of RXSOL-40-4028 - The dosage of RXSOL-40-4028 required varies widely with different applications.

Cooling water/ Boiler Water Logsheet

In order to be able to follow the performance of your boiler, main and auxiliary engines, Rx Marine International provides you with water treatment log sheets where daily log entries can be made. Apart from keeping track of the performance, the log sheets are also a valuable tool for troubleshooting.
