## Corrosion Inhibitor-Antifoulant for Aluminium cooling system

Part/Order no:	Packing
RXSOL-40-4026-25	25 Ltrs
RXSOL-40-4026-210	210 Ltrs

### Product Description:

Corrosion inhibitor/antifoulant-aluminium cooling & closed circuit systems RXSOL-40-4026 is a superior corrosion inhibitor developed for use in closed water circulating systems containing aluminium. Accepta 2309 is based on a novel blend of organic and inorganic corrosion inhibitors, including molybdate, intended to protect steel, copper and other nonferrous metals. RXSOL-40-4026 is an ideal treatment for closed chilled water and low pressure heating systems. Whilst RXSOL-40-4026 is designed to protect systems which incorporate aluminium, it should NOT be used in systems with "Stelrad Super Plus Modular" boilers where an alternative product should be used. In all applications of RXSOL-40-4026, where aluminium is present it is important to control the pH in the range 7-8.

### Dose:

Dosing of RXSOL-40-4026-For systems containing no aluminium RXSOL-40-4026 should be dosed at 0.5 to 1% (5,000 - 10,000ml/m<sup>3</sup>) in order to give a reserve of 50ppm of sodium molybdate. For systems containing aluminium the dosage of 1-1.5% should be added in order to maintain a minimum reserve of 100ppm of sodium molybdate. In certain circumstances it may be necessary to adjust the pH separately by the addition of pH conditioner. In systems requiring significant passivation higher initial dosages may be required to yield the required inhibitor residual.

## Enjoy our Warehouse Services

We are engaged in rendering Warehouse Services to the clients, so that they can safely store their goods. Our services are availed by renowned manufacturers, traders and suppliers from different parts of the country. Moreover, our warehouse is free from pests and rodents as we take various pest cleaning measures. Our Warehouse Services are offered to the clients at cost effective rates.

### FEATURES :

1. Builtup with International norms
2. Safety with CCTV, Security Guard
3. Full amenities
4. Free from pests and rodents
5. Large space available
6. Available in all major port locations
