Electrosol QD

RXSOL-16-1009 is a well balanced blend of non - chlorinated degresol (having super digressing power) with surfactants. Its rapid evaporation rate enables it to be used for cleaning and decreasing of electrical equipment, motor winding etc. **CLASSIFICATION :** *ELECTROSOL QD (quick dry) *ELECTROSOL NF (Non-flammable) *ELECTROSOL PLUS **APPLICATION :** For cleaning of electrical parts . It must be applied concentrated.

DOSE

Apply in concentrated form. 

Stain Removal Tips

Unknown

If a stain cannot be identified, treat with cool water first, then sponge with a good quality laundry liquid solution. Rinse well and if stain persists try equal quantities of methylated spirits (wood alcohol) and ammonia, testing first to note effect on colour and fabric. If colour is affected, omit ammonia. As a last resort, try a mild bleach, e.g. A diaper wash/sanitiser container sodium percarbonate.

Tips for removal of RED WINE Stains from : Quickly Remove as much of the excess red wine from the material by blotting the spot with any absorbent material. Paper or cotton towels work best. Place a piece of the towel on the front and back of the material and press down & Hold for two to three minutes to absorb the wine. Remove and replace the towels and then repeat the process.
