Personal Precautions and Protective Equipment:

Avoid eye and skin contact. Use personal protective equipment.

Environmental Precautions:

Prevent from entering drains or water sources.

Containment/Clean up:

Collect for disposal. Clean up remaining materials from spill with suitable absorbent. For large spills provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean area as appropriate since some silicone material, even in small quantities, may present a slip hazard. Final cleaning may require steam, solvents or detergents.
