Corrosion inhibitor for copper/copper alloy system

Part/Order no:	Packing
RXSOL-40-4017-25	25 Ltrs
RXSOL-40-4017-210	210 Ltrs

Product Description:

RXSOL-40-4017 is an excellent organic, film forming, liquid corrosion inhibitor product developed specifically for copper and copper alloy based water systems. RXSOL-40-4017 is designed to supplement other chemical treatments used in open re-circulating cooling water systems that contain copper or copper alloys.

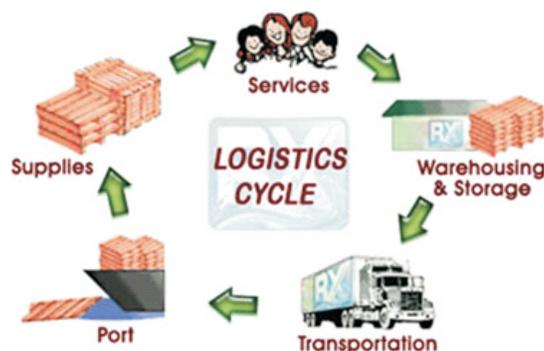

In general, 0.5 - 2 ppm of active benzotriazole is needed for system control. This is about 1.5 - 6.0 ppm of RXSOL-40-4017.
