

# RX MARINE INTERNATIONAL

## Total Solution Total Protection

AN ISO CERTIFIED COMPANY

### Safe Acid powder

**Part/Order no:** RXSOL-54-1008-25      **Packing**: 25 kg

**Dose:**

This is mixed with fresh water 3 to 20 percent depending on deposition of scaling. After using SA-1008, sense all metal surfaces with 0.5 percent of Rxsol-50-5002-AC at least 2-4 house , up to neutral of PH valve.

**Safe Acid powder:**

It is a superior , heavy duty, POWDER acid containing accelerators, corrosion inhibitors & wetting agents . Specifically formulated to remove rust and water scale build up from boiler evaporators, heat exchangers, cooling systems, pipeline collection system etc. Highly effective on heating. Safe and easy handling and storage . Fast and efftive scale remover .

- Non-combustible solid.
- Smoke from fires is irritating.
- Not flammable. In case of fire use extinguishing media appropriate to surrounding conditions.
- Prevent run off water from entering drains if possible.

**Characteristic:**

- Powder product-safe and easy handling and storage.
- Fast and effective scale remover, It is Water-soluble,non - flammable,non-volatile And non-hydroscopic Inhibitors.
- protect metals.Requires no heating unless its activity is required to Increase fast.Contains anti-foam agent.
- Removes scale from boilers.
- Removes scale from Diesel Engine cooling systems.
- Removes scale and rust from condensers,Evaporators, Heat Exchangers etc.

**Application:**

APPLICATION.	Boilers, calorifiers, heat exchanges, diesel engine cooling system, condensers, evaporators & other type of equipment where rust & scale form.
APPLICATION.	Reddish / Yellowish / white – Powder ( without indicator ).
Density.	1.2g/cm3.
PH .	(10 wt %):1.1.
Compatibility.	Metal Avoid aluminium, zinc, tin and their alloys.Avoid galvanised surfaces Rubber No known effect.
Rubber.	No known effect.
